Claims 59-70 are presented for examination.

Applicants' request for reconsideration filed May 28, 2008 has been received and entered.

Accordingly, the rejections made under obviousness-type double patenting over claim 1 of U.S. Patent No. 7,141,520 B2; and over claim 1 of U.S. Patent No. 7,192,602 B2 as set forth in the previous Office action dated December 28, 2007 at page 2 as applied to claim 59 are hereby withdrawn because of applicants' remarks.

Accordingly, the rejection made under provisional obviousness-type double patenting over claims 27-47 of copending Application No. 10/673,596 as set forth in the previous Office action dated December 28, 2007 at page 3 as applied to claims 59-70 is hereby withdrawn because the copending Application No. 10/673,596 is now abandoned.

Accordingly, the rejection made under 35 USC 103(a) as being obvious over LaTorre et al. (6,517,863 B1) in view of WO 00/76486 A1 of PTO-1449, hereby known as Bellantone et al. as set forth in the previous Office action dated December 28, 2007 at pages 4-5 as applied to claims 59-70 is hereby withdrawn because of applicants' remarks regarding the differences between the prior art and the present invention.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 59-70 are again rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

This is a **New Matter** rejection.

Again, applicants' specification does not the newly added phrase "**with the proviso that the tissue is not nail tissue**". Nowhere in the instant specification states the instant abrading composition is not to be used on a nail tissue. The specification has to state and show the exclusion of the nail tissue from the application of the instant abrading composition.

The rejection made under 3 5USC 112, first paragraph (New Matter) is adhered to.

Claims 59-70 are not allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any
